Submission:

to Review Group on State Assets & Liabilities

I submit that you do NOT consider the sale
 of Dun Laoghaire Harbour Company

I write as a local public rep. (Cllr.) for
 36 years, of this constituency.

I am also, at present, a Director of the Harbour
 Company.

The Harbour Co. is pivotal to the town of
 Dun Laoghaire: indeed the town is there as a
 result of the existence of the harbour.

The people of Dun Laoghaire are horrified
 at the prospect of this Co. going into the
 private sector, losing control of their
 Port entry point.

They would lose the opportunity to influence the associated uses to which the company is currently offering the public. the company is vibrant, successful imaginative in a changing economic climate. The potential of an asset stripping group having control of the entry port, is NOT acceptable, in any form. I feel equally strongly regarding the sale of the other ports recommended for consideration. Why be a Republic at all, if points of entry are not in public ownership. Please eliminate Dun Laoghaire Harbour Co. from your considerations.

Jane Dillon Byrne
