Subject: Review Group on State Assets and Liabilities

Attachments: Role of SOEs ONLINE FINAL.pdf

Dear Colm, Donal and Alan,

Forfás is releasing a paper today on the role of state owned enterprises in promoting enterprise development. I attach a copy of the report for your information.

Hopefully, you will find the report useful in the context of the group to examine State assets and liabilities.

I hope this work will help guide, from an enterprise development perspective:

- the rationale for ownership of State-owned enterprises of essential infrastructures and services so as to best achieve their objectives;
- the structuring and management of SOEs to ensure that all enterprises can access world class infrastructure and services at competitive prices; and
- provide a basis for making informed decisions as to further investments or the potential disposal of state assets.

We would welcome the opportunity to engage with your Group as your work progresses. Please do not hesitate to contact me should you wish to discuss this piece of work or if Forfás can be of any assistance in providing further analysis.

Kind regards,

Adrian

Adrian Devitt
